MANITOBA POPULATION ESTIMATES - July 1, 2007

NET MIGRATION	**(January to June)**	**2007**	**2006**

	Total	4,292	1,397

Manitoba's total population was estimated at 1,186,679 persons as of July 1, 2007, up 3,374 persons from the April 1, 2007 estimate. Population growth continues on an annual basis, with Manitoba's increase since July 1, 2006 estimated at 8,187 persons, or 0.69%. A large portion of Manitoba's estimated population gain of 8,187 persons over the past 12 months was the result of immigration (10,789 persons). The immigration flow of 10,789 from July 1, 2006 to June 30, 2007 is the best since at least the July 1, 1971 to June 30, 1972 period.

We recorded an estimated net loss of 1,613 persons to other provinces through interprovincial migration in the first half of 2007, an improvement of 1,806 persons from the net loss of 3,419 persons in the first half of 2006. In the first half of 2007, Manitoba gained population on a net basis chiefly from Quebec (334), Newfoundland (56), Nova Scotia (39) and New Brunswick (38), while most of the losses were to Alberta (-1,472), British Columbia (-549) and Saskatchewan (-75).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 4,292 persons in the first half of 2007. This net gain of 4,292 persons marked an improvement of 2,895 persons from the net migration gain of 1,397 persons in the first half of 2006.

Net international migration for the first half of 2007 was 4,853 persons, up from 4,116 persons in the first half of 2006. This improvement is due to the increase in immigration that went from 4,807 persons in the first half of 2006 to 5,549 persons in the first half of 2007.

It should be noted that Statistics Canada has released revised components of population estimates for Canada, the Provinces and Territories. The revised estimates cover the time period from third quarter 2003 onward. This MBS report incorporates all revisions.

Table 6 presents the differences between the current population statistics contained in this report and those previously published by Statistics Canada for Table 1.
